

# IWCE's IoT SAVING LIVES

**May 14, 2018**

**Santa Clara Convention Center | Santa Clara, CA**

Be part of this new, one-day event which examines the vast array of the Internet of Life Saving Things that interface with public safety operations. IWCE's IoT Saving Lives will be co-located with Internet of Things World, the premier IoT event attracting 12,000 attendees annually.

## Who Attends?

- A first responder who needs to know what IoT can do to enhance their abilities and functionality in their jobs
- A government administrator or elected official involved in IoT for smart city decisions for your state, county, municipality or region
- An enterprise IT manager who wants to understand the opportunities available with IoT, LTE, FirstNet, NG911 and smart cities
- A carrier trying to provide connectivity and services to meet IoT, Internet of Life Saving Things, smart city and other public safety needs
- Any vendor or manufacturer who provides IoT products that might apply to the Internet of Life Saving Things, smart city and other public safety needs

Co-Located with: **Internet  
of Things  
World**
